WHY CHOOSE AN

ENTRANCE® COMPOSITE DOOR?

Low Maintenance - Impact resistant GRP skins replicate the grain of an oak tree creating a natural look. Our extensive range of colours are resilient against UV damage giving you a 10 year surface finish guarantee.

Unique to You – with an array of colours from Standard to Stained, Premium to Painted, you can truly make your door unique to your taste. We offer a wide range of frame colour options and we even can paint your frame the same colour as your door!

All in the Detail – From our triple-glazed glass designs to our door handles and furniture, Entrance carefully pick the finest range of products to compliment our doors. Recently, we have worked with our suppliers to match our Rose Gold furniture to tie in with exclusive glass designs containing Rose Gold caming to finish your door to the highest of standard.

Superior Security – Our doors have been tested to and passed the rigours of PAS 24 security testing. Each door is supplied with a Winkhaus lock independently approved by the 'Secured by Design' policing initiative known for their knowledge in quality and security, paired with the Brisant Ultion 3 Star security cylinder with a £2,000 Guarantee to the homeowner against burglar attacks (see more on page 5).

Structural Strength - the internal frame of the door is manufactured from laminated timber which prevents any twisting and warping, giving you the benefits of a Composite but look of a Timber door, resulting in a 10 year structural guarantee.

Thermal Efficiency - With a high-density, foam insulated core, our composite doors have been proven to be 19% more thermally efficient than 48mm solid timber core composite doors, and 17% more than your traditional timber door. Our doors help keep the heat locked inside your home by preventing heat escaping through your door, therefore decreasing the energy loss and costs!

LEAVE YOUR WORRIES
AT THE DOOR

First and foremost, at Entrance Composite Door Solutions we provide your home with the security you and your family need. Our doors have been independently tested to exceed the requirements of PAS24 – the UK security standard for external doors; and are Part Q compliant.

The Entrance Composite Door leaf is a hybrid GRP Composite, comprising of an impact resistant, 2mm GRP skin, an LVL and Timber frame structure and filled with a insulated foam core containing a security board.* It has been tested to PAS24 regulations and excelled at the cut through test proving the utmost security for your home.

At Entrance Composite Door Solutions, we want nothing but the best for our doors on your home. We class all of our GRP doors as enhanced security as they are fitted and supplied with German manufactured Winkhaus multipoint locking systems along with high security Brisant 3 Star Kitemark Cylinders with £2,000 Guarantee against burglar attacks, giving you peace of mind that an Entrance door is the best way to secure your home with the most reliable security options in the market.

For Lock & Hardware options please see pages 64-68, featuring our NEW AV3 locking system

*Some door styles have a 4mm security skin whereas other door styles contain a security board inserted in the centre of the door.

HOW TO CHOOSE THE RIGHT

COLOURS & FINISHES

We know that the colour of your door is one of the first decisions you make when buying a new door for your home. We offer a range of 30 colours and finishes for our doors and frames, but if you don't see the colour that you love or have a colour in mind we can do that too!

We paint to any RAL colour, and can even match your favourite interior paint colour! Each of our doors are carefully and skilfully sprayed by hand and offer a 10 year surface guarantee.

To help you choose we have created a guide below on our ranges of colours and how to pick the perfect frame colour to complement your door...

Standard Door Colours*

These colours are ideal for use with a contrasting frame colour (more commonly used with smooth White PVC). If you do require a 'Standard' colour with a Colourmatched Frame we will paint both the door and frame to ensure a perfect match, perfect for you want your door and frame to be Standard Black!

Premium Door Colours*

A limited range of colours which are factory finished, intended on tying in with a smooth White PVC or Foiled frame of the same named colour. Due to the different materials used on the door and frame they will not be an exact match but compliment each other.

Painted Door Colours

Our hand painted finishes give our customers a wide choice of colours in both grained or textured finishes (see door collections for more information), with carefully chosen colours based on current trends. We love when homeowners make a grand Entrance by adding a Colourmatched frame where we paint the frame at the same time as the door. To ensure colour match it is best to choose the same finish on your frame as the door by picking a Colourmatch Grained with a door that contains the Oak grain detail or a Colourmatch Smooth with our smooth contemporary doors.

*All door styles may not be available in 'Standard' or 'Premium' due to availability however the door can be painted to the closest RAL of the standard colour

STANDARD COLOURS

White | Black | Blue | Red | Green

PAINTED RAL & RENOLIT COLOURS

Cream | Agate Grey | Light Grey RAL 7035 | Traffic Grey RAL 7042 | Mouse Grey RAL 7005

Slate | Anthracite Grey*** Renolit 7016 | Beck Brown | Distant Blue RAL 5023 | Duck Egg | Chartwell Green***

WOODGRAIN COLOURS

Irish Oak | English Oak | Rosewood (Black Cherry) | Gold Oak | Grey Oak

EXCLUSIVE PAINT COLOURS

Cotton Candy | Coral | Florida | Diablo | Burgundy | Very Berry | Putty

Pebble | Lawn Grey | Sage Green | Stormy Seas | Victory Blue | Imperial Purple | Cotswold | Sunshine

All of our Standard and Painted colours are available on grained or smooth doors*

*Special Stains are not available on Smooth doors or Colourmatch Grained frame | *All door styles may not be available in 'Standard' due to availability however the door can be painted to the closest RAL of the standard colour | **Premium colours come in already extruded as the specified colour not requiring painting. This is not possible when colourmatch frame has been chosen or on certain door designs | ***Available as a premium finish in some door designs, check our door builder for availability | Colours are for visual representation only, printing practices may cause colour variation.

PROFILE COLOUR OPTIONS

At Entrance® we offer a wide selection of profile colour options along with the option of Ovolo for the traditional sculptured look or Chamfered for a more modern, clean look of frame styles.

Choose from our Standard Frame Colours shown on this page, all of which are foiled (excluding the White PVC and Colourmatch Smooth option), or opt for your door and frame to be painted the same colour at the same time to give your house the grand Entrance® it needs.

Colourmatch Smooth Frame Option – A lightly textured finish on a smooth frame to perfectly compliment our smooth door collections. If white is chosen on inside it will be our standard white PVC frame.

Colourmatch Grained Frame Option – A painted, pre-foiled frame to give a grain effect and painted and or stained at the same time as the door to ensure a colour match.

FRAME OPTIONS

ENTRANCE®

GRAINED DOORS

Grained Door Surface

High quality and treated with impact resistant finishes our GRP fibreglass door skins are not only strong and durable but have been designed to mimic the grain of an oak tree offering a truly traditional appearance.

Sculptured Mouldings

Complementing our grained door surface and encapsulating our beautiful glass collection, our sculptured glazing cassette has been developed to replicate traditional timber mouldings. Colour matched and grained to complement the skin design these truly enhance our doors.

ENTRANCE®

GEMSTONE COLLECTION

Adding a touch of class to any home our traditional styled Gemstone Collection offers home owners a wide range of designs which are complimented by our woodgrain GRP skins. Combined with an endless colour pallet, decorative hardware and beautiful glass can create a stunning door for any home.

ENTRANCE®

GRIDLITE COLLECTION

An extension to the Gemstone collection, our Gridlite range brings a fresh look to these age old classics designs, re-imagining them with all the benefits of a composite door. The exquisite glass options add to the beauty of the door designs.

ENTRANCE®

GALAXY COLLECTION

Bringing a contemporary twist to our grained door range the Galaxy Collection features a selection of designs which can be combined with either our flush door or cottage door pattern. Stunning glass, quality hardware and a wide range of colours creates a mesmerising collection of doors.

ENTRANCE®

SMOOTH DOORS

Creating contemporary style, the Entrance Composite Door range features a collection of smooth skin doors which are available throughout the Elements, Elegance & Edge Collections.

Smooth Door Surface

Developed using a unique blend of GRP, Entrance smooth doors are manufactured to the highest standards and feature impact resistant coatings, your door will remain as fresh as the day it was installed for many years to come.

ENTRANCE®

ELEGANCE COLLECTION

A collection of timeless door styles which are further enhanced by using our smooth skin technology. Combined with our glass collection creating an elegant range of door designs the Elegance Collection can enhance any home creating a durable and stylish entrance.

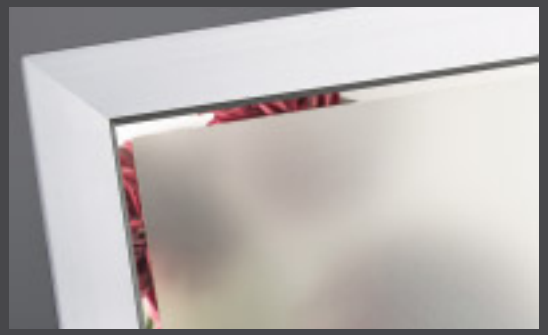
Sleek Glazing Frame

Utilizing the screw-fixed aluminium Urban cassette system further compliments the sleek design of the door by creating glazing apertures with contemporary style. Available as either anodised aluminium finish, or painted to colour-match your chosen door colour.

ENTRANCE®

ELEMENTS COLLECTION

The contemporary styled Elements Collection feature the Urban cassette system blending into the door design in a matching finish. However, to create a more striking look the glazing system can be ordered in a contrasting aluminium finish or even in a complementary colour. The potential to personalise your door is endless.



ENTRANCE®

EDGE COLLECTION

Our ultra-modern Edge Collection doors are manufactured using our unique 4mm GPR skin technology where the designs are grooved into our smooth surface door to create sleek designs. Available with either complementary same colour grooves or with feature metal inlays the Edge Collection is the ultimate in contemporary door design.

STABLE DOORS

Whether it is for convenience or nostalgia, stable doors can be a popular choice for our modern homes. Our range of stable doors offer a durable, energy efficient and secure take on the traditional stable door.

Great for those hot summer days and long summer nights, the easy functionality of our stable door allows you to effortlessly split the door, allowing a perfect flow of air through the home. In winter months, the stable door will be energy efficient, and perfectly weather tight, unlike its older traditional cousin.

Available in a range of deigns with multiple glass options and our vast array of colours, the Entrance Series offering can cater for your stable door desires.

CONTEMPORARY & HERITAGE

WINKHAUS AV3

At Entrance® Composite Door Solutions, we want nothing but the best for our doors on your home and are proud to supply German manufactured Winkhaus locks, knowing that they have the best and most reliable security options in the market.

The AV3 is the next generation of the highly acclaimed AV2 automatic locking system which we have naturally progressed our Contemporary, Heritage and Electronic hardware options to recently. The AV3 gives you the best of both worlds, security and control!

Door image features mid-height version of the AV3 lock.
This is also available in Heritage version with a higher key position.

Daylatch Feature

With all of the benefits of knowing your door is locking automatically behind you, it is also nice to know that you can authorise entry to you house for family members or simply if you want to nip out to get something from the car! The main change from the AV2 to the AV3 is the magnetic Daylatch feature which allows you to do just that. By simply flipping the switch on your frame you are able to turn off the magnet that causes the hooks to engage, meaning you or your family can easily enter or exit your home without worrying about forgetting your key.

Quick, Secure and Silent

The AV3 features multi-point, independently acting hooks for claw action and sealing elements for a dynamic contact pressure. By pulling the door closed, the sealing elements and the sturdy hooks are triggered by means of a magnetic release on the frame and the door is secured against undesired entry. This ensures that the door always remains securely locked and remains firmly in its frame even without additional locking. The sturdy hooks, sealing elements and latch can be retracted manually using the locking cylinder or door handle.

Smooth Operation

Our Winkhaus AV3 door lock is operated by key which is why it works best with our Contemporary and Heritage hardware options and despite the large double hook feature, the lock smoothly engages and retracts with ease. One of the best features of our Contemporary hardware options is the ease of use on opening your door the inside, and now its available on the Heritage hardware too!

At Entrance® we uniquely provide a lever on rose internal handle fitted to your door when the bolt through pull or cylinder pull handle options is chosen, making it nice and easy to open your door while exiting or letting visitors in. To open the door you simply push down on the lever handle, and when you close it there is no need to loft the handle for deadlocking as the hooks will automatically drop when in the closed position. We also offer back-to-back pull handle options if you would prefer and the door is opened by simply turning the thumbturn cylinder supplied.

INTERNAL DOOR RELEASE OPTIONS

LEVER ON ROSE
Lever on Rose function on bolt-through pull handle and cylinder pull handle options.

SECURITY AT YOUR FINGERTIPS

The ultimate in convenience and security, our NEW D-Line Ekey Biometric readers use fingerprint technology to allow you to enter your home.

With over 6 billion people in the world, your fingerprint is unique and you always have it with you so why not use it to enter your home. No more need for keys in your day-to-day routine, this simple yet effective system can be used by up to 100 people, each programming in up to 10 fingers. With Bluetooth controls and simple programming via your smartphone, this truly is the lock of the future, available now.

The technology constantly re-learns you finger every time you use it so families with growing children are catered for and you never have to worry about leaving your home unsecure, being locked out or even loosing keys.

The New Ekey Scanner is available as a scanner mounted to the door at shoulder height beside your choice of bar handle, or no handle on the outside if you prefer.

Brand NEW to the Entrance range is the Ekey Integrated within the bar handle, where the scanner is embedded in the pole of the bar handle with no need for a separate scanner.

New Features

- Push Notifications to smart phone with each entrance to your home
- Unlock your door remotely
- Set up new users with app that logs all activity
- Bar handle with integrated scanner
- New, smaller scanner design for sleeker appearance
